

MINI Value Service

Terms & Conditions

MINI Value Service is available on selected MINI models aged 3 years and over at participating Group 1 MINI Retailers. Vehicles less than 36 months old from date of registration do not qualify for Value Service.

The MINI Value Service price includes a vehicle service carried out in accordance with the manufacturer's recommended service schedule and using MINI Genuine Parts, oils and fluids where applicable.

Eligible vehicles must be booked and serviced at a participating Group 1 MINI Retailer. Pricing may vary depending on model, engine type, age, specification and any additional maintenance requirements identified during the service.

The advertised MINI Value Service price applies only to the standard service items included within the scheduled service. Additional work, repairs, MOTs, diagnostics or maintenance identified during the service inspection will incur an additional charge. Customers will be contacted for authorisation before any chargeable work is undertaken.

Prices are subject to change without notice and include VAT at the prevailing rate. Offer availability is subject to retailer participation.

Appointment availability may vary by retailer and is subject to workshop capacity. A service booking must be made in advance.

MINI Value Service cannot be used in conjunction with any other service plan, service package, discount, offer, promotion or voucher unless otherwise stated.

Vehicles covered by a MINI Service Inclusive package may not be eligible for MINI Value Service pricing where equivalent service work is already included under the customer's existing package.

Group 1 Automotive reserves the right to amend, withdraw or extend this offer at any time without prior notice.

MINI Value Service applies only to qualifying maintenance and repair items included within the campaign scope. Eligible work may include engine oil services, brake fluid services, inspection services, vehicle checks, filter replacements, spark plug replacement, wiper blade replacement, brake component replacement and other selected maintenance operations as specified by MINI. Availability of individual service items is subject to vehicle model, age, condition and manufacturer requirements. The retailer will confirm eligibility at the time of booking.

For full eligibility, model coverage and pricing information, please contact your preferred Group 1 MINI Retailer.
